Here is your Team Drive page. You should see the Friends Chapter Drive and a folder with your chapter name on it. From here, if you click on the Friends Chapter Drive folder, you will find several folders with information in them.

This is what you will see when you double-click on Friends Chapter Drive. The documents in these folders are what we, and you, use over and over. If it's not here, let us know and we will add it.

The top part of the page will show what you have accessed most recent.

If you double-click your chapter folder, you will see this. It will more than likely be empty if no one has used it. This is where you can store chapter documents. We will also be asking you to upload documents here.
